Verse 01:

You had another change change of heart
Enough to break my heart
I keep running til it's
Over and over and over again
Over and over and over my friend

Late night
I toss and turn
I think about the things that went right
Was it wrong?
Lean in to touch you
But I think I waited too long

Pre-Chorus 01:

Can't come true
I hold on to nothing
Seems to do
Hang my head
But it's all I got
To stay in this bed

Chorus 01:

Ooh I wanna go home
But where's home?
I don't know
Ooh if I stay here
I'll never let you go

Post-Chorus 01:

I can feel my heart is leaving,
The things I can't control
The lights that shine
Try to deceive me
But I know that you're gone
I know you're gone

Bridge 01:

I can see that you're gone

I can see that you're gone
And I know that it's wrong
And feet can't fail me now
I can't see the ground
Til I know home is found

Over and over and over again
Over and over and over

Chorus 02:

Ooh I wanna go home
But where's home?
I don't know
Ooh if I stay here
I'll never let you go

Post-Chorus 02:

Run but the answer is love
I keep dreaming bout the kiss in the car
I run but the answer is love
Mmm mmm

Outro:

Over and over and over again
Answer is love
Over and over and over again
The kiss in the car
Over and over and over again
Over and over and over again
Over and over and over again
Answer is love
Over and over and over again
The kiss in the car
Over and over and over again
